EDUCATION

S.G. Balekundri Institute of Technology, Belagavi

Bachelor of Engineering (B.E) — Artificial Intelligence & Data Science

2022 - 2026

TECHNICAL SKILLS

Programming: Java, Python

Frontend: HTML, CSS, JavaScript, React

Backend: Java, Node.js

Databases: MySQL, MongoDB, Database Design

Generative AI: ChatGPT, Copilot, Claude, Replit, NotebookLM, Google Antigravity

Visualization: Power BI, Tableau

Core Concepts: Data Structures & Algorithms, Computer Networks, DBMS, SQL, OOPS, OS

ACADEMIC PROJECTS

Gym Management System

- Database-driven system to manage memberships, subscriptions, and payments.
- Streamlined gym operations through efficient data handling and user management.

Music Genre Classification

- Deep learning model using MFCC, Chroma, and Spectral Contrast with Librosa and TensorFlow/Keras.
- Achieved accurate classification of music genres through feature extraction and model tuning.

Classification Knee Osteoarthritis

- Machine learning model for classifying knee osteoarthritis using medical datasets.
- Helped in early detection and analysis of disease severity using predictive techniques.

2048 Game

- Python implementation focusing on algorithm optimization and user interaction.
- Enhanced problem-solving skills by implementing game logic and efficient merging algorithms.

Analysis of EV Charging Stations in India

- Power BI dashboard analyzing EV charging station distribution and growth trends.
- Provided insights into infrastructure expansion and regional adoption patterns.

EXPERIENCE

Software Development Intern

Internship - Tap Academy, Bangalore

- Full stack development, database management, and software engineering practices.
- Developed web applications and solving coding problems to improve programming skills.
- Gaining exposure to real-world development tools and collaborative workflows.
